**Abstract** - An application that helps customers to get all law-related work like affidavits, certificates, registry, etc., at the cheapest cost, by the best lawyer, and without going to government offices or court.

**Key Words:** research paper, law, court, notary, affidavit, home delivery, journals

### 1. INTRODUCTION

A person wants to do law-related work like he/she wants an affidavit or any certificate or any document from government offices/court, he/she has to visit to get it. They may also find and appoint lawyers for the same work. Lawyers may ask for high fees taking advantage of customer needs. To solve this problem, a Lawkart application is introduced that will solve all the above problems. Customers just need to put in their requirements and fill the form, after that the application handles that query and delivers the required document to the customer's home with minimum travel and time.

### 2. Body of Paper

The working of the Lawkart application is as follows:

- Lawkart takes basic information and shows the option of services available.
- When the customer selects the service then, it displays the form where all required information and required documents are to be uploaded.
- After that, customers need to pay in advance to Lawkart.
- Work will be assigned to the lawyer and the customer can see lawyer contact details on the status page
- After work, according to feedback from the customer, then the cost is transferred to the lawyer.

For example, an affidavit made on Rs. 10 Stamp paper and gets registered in district court by the lawyer. After payment, customers can directly contact a lawyer for any modification or clarification. We will pay a lawyer when a document is delivered to a customer and the customer rates it high.

### 3. CONCLUSIONS

For easily contacting credible lawyers or getting your prepared documents at your doorstep, for all measure court-related work, the Lawkart android application can be used to get these services at the cheapest and reasonable prices.

## **ACKNOWLEDGEMENT**

First of all, I am grateful to the CSE department for successfully arranging tools for my project. I also thanked them for creating such a wonderful environment for learning about the topic. I am fortunate that I had the kind association as well as supervision of Er. Sapna Pal. Their exemplary guidance, constant encouragement, and careful monitoring throughout the training are so great that even my most profound gratitude is not enough.

I also take this opportunity to express a deep sense of gratitude to all colleagues and friends for helping me and presenting an amazing experience. They are wonderful people, and I will never forget these days.
