The people are not living more who are born with mental (Psychic) and Physical shortcoming/deficiencies or disabilities. In addition to this, those having mental disabilities or physical imbalances at birth are also not dying naturally. They are prone to pre-mature deaths or early deaths. This is due to the fact that they possess deficiency of required hormones, nerves or organs. Nevertheless, they face problems due to the ill effects of planets and this is shown by research. The people who recovered good health-mental and physical from these deficiencies were not completing their full tenure of lives. The majority of them are losing their lives even before completing their life spans. The people who lived are less.

Psychological defects can be as follows:

Doubt, fear, quick grasping power, sensitivity – sensitiveness, very less intuition – grasping skill, attention; repeating the same words, thinking only on one type of situation or one sided thinking – all these are problems in Psychology. Bathing habits show a certain distinctive index on the life styles and character of individuals. For examples, people visit temples after taking bath and not before it. Man after sexual intercourse or after consuming non-vegetarians food will not go to temple. Due to this, God will not be angry over them on his devotees. Such behaviors put a negative mark on the person. Bathing gives food to the seven cognitive wheels of the Psychic order present in the individual and controls his or her actions and emotions. Therefore bathing has a direct link to these traits and to the regeneration or refreshment or relaxation of the body and the mind.

Investigative Duration: 3 Years

Project 14:

Repeated bathing habits like taking 2 or 3 times in a day invite diseases to the human body and attack it. Micro-organisms, bacteria will thrive in cold water. It may be even be micro bacterial organisms. Due to this, when they touch the body of a person make it a ground for diseases and disorders.

If such bathing practices provide relaxation/ rejuvenation to the muscles, they gradually show a drastic effect on the body of a person after 50 years. This will take place due to the gradual weakening of the tendons and muscles with more loss of strength. But health will improve taking bath with hot water. This notion is purely temporary. Even to persons taking bath with hot water, after 50 years, diseases will start pricking their bodies. This is due to the nervous and muscular debilities and due to weakening of skin or muscle over impact of hot water. It is true that bacteria and other micro-organisms die due to the impact of hot water touching the skin. But constant use or application of hot water on the muscles, nerves heats them up and weakens the tissues and on one fine day will yield to the problem of blood circulation and decay. The thinking capabilities also reduce due to this and the forests are seen living more without taking a bath. People living in villages and in towns and cities though take bath and have civic sense are prone to premature deaths or early deaths and are found living with disease and suffering states.

Investigative Duration: 5 Years

Project 22:

A Case Study:

Generally friend Nikita used to feel quit all right with her physical condition or well being in the morning. But she felt that she was becoming obese in the evenings. This special feeling arises due to the reason of sun's Rays. Generally this Psychological disorder appears also in persons who are thin of fat due to exposure to Sun's Rays. It is generally observed that a person suffering from fever is quite comfortable during the day and starts feeling the pain or suffering during the evenings or in the night times. Many people or persons have no answer to these views. This will be known to an intuitive researcher. The same will be understood or learnt by a person on deep inspection. Till then, these conditions will remain in the dark. The design and knowledge of a man's personality also will develop in accordance with the rise of the Sun. the Sun's Rays fall on the bodies of persons, pinch and penetrate there by creating strength, inducing energy and creativity, to develop, to think and to improve thinking, towards better creativity. Due to this, the person transmutes strength and assimilates energy with the body. The knowledge also improves that came out of the humours. This will increase the light of the person-his or her physical orb of presence and influence. This will remain active till sunset. After that, the body starts losing energy as it endures less matter waves which decrease its activity. It becomes prone to the attacks of viruses making it vulnerable to contagious diseases and infections. There are more chances therefore to the person becoming vulnerable to infection and attack from diseases.

If anyone has made any sort of black magic spell or witchcraft on such type of a person, the ill effects will increase in that time. Possession effect on innocent Nikita and the administration of Psychology medicines or tablets to her by her mother became an experiment of possession. It may be administration of tablets or acts

of witchcraft of black magic or it might be a natural process or due to the food items or due to any other activity-the repercussions and the results do hamper in different ways and bear influence such types of cases and must have knowledge about that.

More Examples: Thinking that Nikita is my step daughter or thinking that Nikita is observing her (mother's) illicit relationship since she is 4 year old, she (mother) use to feed her slow Poisonous meals and used to provide her drug twice a day which makes psychologically unconscious, so Nikita's stomach become enlarging at night and back to normal position in seeing the sunshine. When sunshine disappears her stomach become enlarged severely, this is going to happen daily at the fall of dark pimples appeared on her body with symptoms.

In this stage her mother started witchcraft on her daughter this caused negative result on her body. Kethu (one of the planet in astrology science) effect started on her body. Kethu refers to one of the powerful planet in the geography, it is still undiscovered with the help of science and technology on body discovering so far.

However At the time when Kethu is in revolution, if we perform witchcraft surely it uses to give negative impact, Nikita Experienced, Kethu's impact continuously for 7 years. After the end of Kethu period, she never suffered from stomach enlargement fatness's, pimples because of psychologically drugs.

Well she suffered from the stomach enlargement and spell of witchcraft only in the absence of sunshine at mean at fall of dark. Because of physiologically drug on her body fatness, stomach enlargement as a result she undergone psychological sickness, because of the effect of sunshine and witchcraft she begin to scared devils and evil spirits and even she scared her mother. Because least distant of Neptune from moon, she suffered from peculiar types of dreams. She travelled for off places in her dreams. Mercury planet was at least distant from their so because of misunderstanding she exchange of dialogues and quarrel with me. She argued that whatever she tells is correct. On the other hand Jupiter planets was close to earth because of improper position of planet Jupiter and as a result of both the reasons above described she was rejected by the society as she is mental not stable.

Many Psychologists told that she is suffering from the psychological sickness. But after disappearing or proper position of Kethu planet. She overcomes from sickness. This was big question psychologist but not for Nikita. Psychologist drugged her without identifying the diseases.

She gradually understands her mother's cunning act and maintained distance from her mother. Actually we can understand hence that she is not psychic but her mother because she was in danger of unveiling of her illicit relationship. Finally her mother herself was suffered from the serious diseases at the time of disappear sunshine. Again she uses to become well and healthy in the morning.

Another Example: another friend was suffering from the psychological diseases and was under treatment. She was acting as if an evil spirit has admitted in her body. No psychiatrist can understand this they think that she is suffering from hallucination, so they are treat her with psychological drugs since 4 years. But she never comes out from her diseases. She use to fell unconscious again and again because of an evil spirit in her body, because of Neptune was in the 8th cell and there was another sinful planet beside Neptune.

Beside another spirit entered in her body she fell unconscious again and again that spirit lead her to do this act, but no psychiatrist discovered this when Saturn vision disappeared she healed, she never healed by the Psychiatrist treatment.

Project 36:

In whose Horoscope the Planet Neptune is in the 8th House, such persons will be negligent over managing money or life partner. They show the willingness to be more materialistic or luxurious and will face financial crises after marriage in their lives. If Neptune is very close to the 8th House or at the junction with a malefic planet and if the 8th Lord is not in a good position, they get the disease of unconsciousness and suffer. If the planets Neptune, Mars and Uranus are in conjunction and are showing opposite views, then the persons having such type of planetary statuses will be in the habit of drinking always and consume a variety of drugs. Alternatively they take poisonous or wrong medicines and will suffer from the repercussions. Moreover if the influence of the planet Saturn is more in their Horoscopes, they will suffer from such acts and from the effects of secret sciences there by becoming victims of black magic, witchcraft, devils and spirits. If Neptune is with the Moon, the persons will experience special and different dreams. If Neptune is close to Mercury, the people experience mistaken notions and shall get the habit of argumentative behavior. Even more, if Jupiter is not in a good position, they will be branded as incorrigible or as the ones beyond repair or mentally retarded persons.

Further in such type of planetary transits and combinations, humans experience bad habits and will be addicted to more drinking, behave like Psychos and lose confidence on themselves, stand status, doubting over themselves and doubt or suspect others. But if there is no influence of Saturn or such planetary Juncture, people experiencing these disorders will naturally recover or heal themselves. Till then no medicine or tablets will not cure them or elevate or their conditions.

Even the doctors realized these problems of the persons having such planetary positions. In the case of doctors, as per the planetary positions charts, if Neptune is close to Mercury, the persons will develop wrong beliefs and will develop argumentative traits. If Jupiter is not in a good position, their conditions will become irreparable and they will be discarded by society as mentally ill persons. Therefore this cannot be treated or fixed as a problem of Psychology. Sometimes these problems arise due to spirits, Earth's mass, Snakes and by Divine Power. In whose horoscope there is the sharp look of Saturn and where there is the combination of the Node, the shadow planet, Rahu and the effect of Jupiter, such persons will experience problems from spirits, Divine power, the Earth's gravitational mass, from snakes and will be trapped in suffering mental stress or illness. Then the problem of Psychology arises. The solution is one and the solution given by the Doctors/Psychiatrists is different. As a result, the patients will suffer seriously without getting proper care. Due to their planetary positions and with such drastic results they suffer. This becomes the main reason. Further the persons will behave typically as a model or differently or foolishly with madness and the reasons attributes to these will only arise due these. In whose Horoscope Jupiter and Mars stay together in the Nodal Phase or in the Nodal Phase of Consumption (The Rahu Dasa Bhukti), the person will experience high Blood Pressure. Then he or she experience symptoms of diseases like headaches, heavy pain in head, infectious saliva, bleeding in the mouth (oral regions).

These will result due to the combinations of Planets or due to their weaknesses. These will not have scientific reasons. Furthermore these planetary combinations show Psychological problems like this and create suffering in people. In such circumstances, man will lead a life of difficulties of daily occurrence and also they possess secrete enemies. Due to this they always speak ill of others. Instead of using the right and useful opportunities such persons will hold on to illegal traits and means land themselves in difficulties and misfortunes. Taking up mega projects or works makes an individual in the right thinking state. Due to this severe headache, mental instability will try to haunt always. Then the problem of Psychology arises in such person.

He then go on a conquest or an expedition and commits crime on others. The other one also will kill him with such types of problems and weaknesses. If the planet Neptune is in the 5th House, then the person will experience several accumulated accounts of love affairs and episode. Then they will be immersed in the acts of love and indulge themselves in illegal activities. Due to this they get the habit of visiting Prostitutes and to commit acts of amorousness and lives with the main track and lead a new life. They will never again revert to do such acts or such behaviors in their lives. If Uranus is in the 5th position in the horoscope of persons, then they suffer from mental debilities and will roam in the streets of their places as madmen, will discard their families or will be discarded by it. In such cases, if they have the planetary combination of the Moon and the Node (Rahu) in their Horoscopes, they lose hope in life and become sadists. Then they again become abnormal, argumentative or emotive in life. They experience greater anxiety or aggravation or excitement. Then in that state, the problem of Psychology arises. But man is not becoming a victim of these due to any

type of activities. Instead, he is getting Psychological problems due to the combination of such planets cited aforesaid and due to their extraordinary revolutions.

(**Rahu** (Sanskrit: is one of the nine major astronomical bodies (Navagraha 09 planets) in Indian texts. Unlike the other eight, Rahu is a shadow entity, one that causes eclipses and is the king of meteors.^[1] Rahu represents the ascension of the moon in its processional orbit around the earth.

North Lunar Node - When Moon moves from South to North in its orbit and crosses Sun's path – the incision point is called Rahu or Dragon's Head) also, (The Sanskrit terms “Dasha” in Hindu astrology is used to indicate planetary periods. The planetary periods indicate when the good or bad effects are produced according to their placement by sign (Rasi), house (Bhava), combinations or aspects is the major period of a planet.

Sleeping during day it moans in the prance of sun-rays causes, humiliations, headache, lock of vitamin, lock of calcium, B. P. Diabetics & mental disturbance & some will become logy & mentally retardation.

Project 68:

Excess reading & excess use of phone (mobile) & watching television cause thyroid & liver problem or acidity appendix.

Project 69:

Removing hair from any part of the body results in infection, use of blade, skjors, or other chemical materials causes skin infection.

Project 70:

Changing dresses or costumes everyday makes man infection; because of he is very sensitive.

Project 71:

Over sleepiness makes blood sweet, it causes diabetes later & causes pain in body, headache, etc.

Project 72:

Using hen (fowl) to remove all the negation energy from man & dumping it in the earth by chopping it treats rapid diseases & fertility, pain of body all can treat with this method.

Project 73:

Who has the defeat in chromosomes or lack of chromosome will face eye-problem and in the older age their eye-sight becomes burr.

Project 74:

In this world 37% of people suffering from bleeding in some parts of body due to mental depression.

Project 75:

88% of people are mentally disturbed because of law and troubles in government activities.

Project 76:

In this world 98.6% of people are serving the nation, social servicing just because of selfishness and greed of money.

Project 77:

37% fat people who are having cholesterol are possibility of cancer.

Project 78: Those who work in the software field and who work under pressure or the writing field will naturally have much desire for sex. They release more hormones and produce sexual desire and yearning for sex with a woman. This is not due to chromosomes or hormones, but this is a psychology problem. It is not perfection to look at a tree and consider life or matter. It is perfection to consider the life of the roots under the

tree and the special reason why the three was born there, this is because there are special reasons for anyone to work in the field of research in the field of writing in the software fields. At the beginning of the education phase, there are those who are in the phase of mars and Venus. In the beginning there will be those who will be educated and who will be in the phase of mars, Rahu and Venus can become software engineers, authors, researchers and doctors but at this time, such as those who are in the software field, who are working on the field of writing of course they have much desire for sex. In such people more and more hormones are released, and produces masturbation and sexual desire with the woman. This is not due to chromosomes or hormones, but to say this is a psychological problem and that this arose. That is, at this stage such as Ketu planetary phase initiation and the weakness of the planets exacerbate sexual cravings, masturbation, excess of female infatuation and men's fascination is over blown. Then the Psychological system is transversed.

Project 79: Usually when a man gets up in the morning, he has a hand-foot cramps and headache. He does not have any ill health problems. But the main reason for this is that sooner or later a few years of liver disease or diabetes will occur. At this phase hydrogen power of the pills will most likely go down over the head. Blood pressure, foot cramps, haunting will occur from any medicine man takes at this point. That pint of time, it is a psychological problem. But the problem is that the headache comes from the consumption of bananas, because of vitamin content of banana, the vitamin particles in the fruit can pour a problem for those who are acutely minded or too sensitive. But there is no rule that this should happen all the time

Project 80: Mental retardation, insane discontentment, upset, lack of comfort, destroying climate of the place, Bhanumati experiment all these occur if any of these planetary faults are found in the birth kundali but this is not really the fault of Bhanumati, it is planetary error or weakness.

Project 81: Anger for man or animals, birds also due to the planets star constellation. This is largely due to planetary state. For example: if the moon's vision falls on Venus, they will quickly become angry. If the site of the same Venus falls on the moon he may soon enough to cool off and keep the anger afloat feeling

overwhelmed. Normally the status of other planets is not conducive to everyone. Most commonly one in every thousand people had the opportunity.

If the planet mercury is moving in a quarter of Uttarabhadra in the four grounds they have immoral activities and legal contact with mercenaries and inferior classes.

Project 82: Planetary waves are the reasons for the remembrance of one person, whether human or animal. For example, in my birth kundali, when the sun falls on the moon, the rays are the reason for excessive anger in me. Later, when the rays of the sun fall on me directly the anger soon subsides. I repent of sin. Similarly, a person who was introduced many years ago Away from us for years or days, we will be left behind or recollect his memory from the planetary waves and planetary conditions. And the action is ongoing from the status. In my birth kundali the half tint of the sun is falling on the moon, when the sun's rays fall on Venus in full or perfect. The memory of lover Uma Devi, who left so many years ago, recalls.

Justification: there is an object laying in front of her eyes or money or may not be useful thing or thorn. To get it or to walk away with a thorn, usually according research or calculation by scientists is because of neurons in the brain. Or from the study of anthropologists or astrologists in the body of man, their giving is the impression of what is to be done is by the influence of piles (Zodiac Sign) but in the case of scientists, or the study of astrophysics, all things are only imagination they maybe superficial processes. But in it really inspired the research of astrologists of the discovery of the stars, the stars and the planetary characteristics of the individual.

According to common sense, naturally either to a boy or a girl of their parents died prematurely, which meant that they died at an early age, according to my research we should realize that in kundali (horoscope) of a boy or a girl it will be Moola star in 1st stanza (Charana - stage) or Ashwini star in 1st stanza or Magha star in 1st stanza. Of the boy or girl lose their mother then it is moola star in 2nd stanza or Ashwini star in 2nd stanza or magha star in 2nd stanza. But that is all visible to us or just pretext.

Some measure a person's life by chromosomes or genetic molecules. Others recognize life with their blood drops. But then again, some people are aware of the pros and cons of planet life. But in reality

blood or chromosomes are created by planets. Identifying a human's life by blood or chromosomes is inaccurate. Because blood or chromosomes are created from the original planets. Calculating and identifying life from planets at an angle is easy to find. Humans know that such a time will occur when the planets are in such a direction or in such a state. This is because life is understood by the application of blood and chromosomes to planetary conditions. So the question arises as to why there are so many different ways to know the huge style or life of a human being again, other than blood chromosomes or planets. But blood or chromosomes do not predict the future, just as planets do. Let me explain a small illustration here,

Example: if many of sinful planets are in the constellation of mars, the eighth house of birth, occupied by the evil classes, mortality is caused. That means group deaths. If Ravi, Rahu, Saturn planets are visible to octogenarian (ashtamadhpathi – in horoscope 8th place of space/galaxy) and if it is in ominous elements then the death of group occurs. Earthquake, tsunami, shipwreck, train, flight, bomb explosion and factory etc from which death will occur. The only people who come here under death yoga(time) and who travel together this time on air, cargo and trains. Those who do not have death yoga will escape death from these factors. But even for those who not injured are also affected by the planetary vision. If the conditions of all the planets is smooth then it is according to birth kundali and don't get bruised from any element. But it is not said chromosomes or blood droplets.

When there are billions of planets in the universe, how can only nine planets are considered to be able to identify the fate of man or life? It hardly feels right or astrological scientists today pretend Man's destiny from planets found only in our solar system orbit. Are only nine planets in orbit is seen. No birth in the Navagrahas (9 planets) is written and the future of the birth is been written. There are many planets that are not visible in orbit. Can it be detected and identified with fate? Yeah true, it is possible to add more human or world information. Likewise considering our land (earth) if we calculate the fate, the daily life of a man can be said without living a shred (inch) one of his hairs can be calculated and prophesied. Because nowadays so many astrologers and astronomers despite failing to work out the future of the world. But considering all that I have said, the fate of the world can be seen with certainty. Most importantly, the planets had to be researched and found the other grounds for ensuring that human life is left behind by blood chromosomes. It is clever planets that are predicted when a person gets cancer, even the blood also predicts. The chromosome also predicts. But planets and chromosomes are certainly more complex than blood drops.

Planets above the chromosomes, as applied to preexisting planetary conditions in the birth zone, it predicts that a person will have cancer in this age group. But the chromosome also predicts. But when a chromosomal person gets cancer, the lack of such a chromosome tells you that the person has cancer. Similarly, blood can also detect cancer after a blood test. When a problem is a solution, another is left with a long standing illness.

Project 83: Some give birth fasted during child birth. For some it becomes slower. Other may have a caesarean or spontaneous delivery at the hospital and can happen today or two days into child birth. The reasons for this or the planetary bases, this is because the planets can be said after the sign or the planetary motion at that time. This problem will continue until anyone in the world lunar orbiter arrives at their respective orbits and joints their respective stars. For this reason, woman begins to feel pain for two days or even several hours during child birth.

Summary:

On 10th March 2014 there will be a Multivariate secondary Krishna status (Krishna paksha) that day she will be in the hospital with childbirth pains, or child birth at home. Childbirth in hospital or home is not important. But it is really the birth place or the fate of the child that is born on the motion of the stars and planets at that time.

That day if it is a moola nakshatra (star) then essentially it is Sagittarius or poorvashada star or uttarashada star. This is because in the astronomy two to three piles of stars are related to the respective stacks.

Well, she will give birth at home or in a government hospital, but that day as already indicated, she had a child birth while the star was in moola nakshatra, so the child would be a Sagittarian. In addition as mentioned earlier, Sagittarius is related to vrushika lagna (Scorpio ascendant)

That day Sagittarius is similar to moola nakshatra and vrushika lagna is true but, there are 12 zodiac piles, (rashi =piles) and 12 lagna(ascendant) in a day, and every two hours the lagna changes.

She had childbirth pains at 10am, but it is true that Sagittarius was in moola nakshatra, but since there are 12lagna in a day, every 2hours the lagnas Change. Kanya was in lagna (Asc) at the time of pain. But if she has to have childbirth, childbirth will be felt until she arrives at any lunar Sagittarius that coordinates with Sagittarius. She appeared in childbirth pains for an hour and then vrushika lagna coordinated with Sagittarius and gave birth.

Childbirth pain continues to be strong until every woman has reached the position of their respective piles in

the same way this is why childbirth becomes so immediate. Some people have to bare pain until they reach their respective lagna. If the pregnant woman was taken to a different district or to a foreign country from the place where the baby was born during the local time, that child's growth and quality is achieved by the movement of the constellation (group of stars) that is the fate of man. That is the movement, the planetary potential movement asteroids will develop on the position of the planetary angle of the stars of a person's growth and achievements.

The life of art emerges in the person in accordance with saphthachakras (bodies' seven wheels) often the art in one is not seen in another. Which one has all sorts of art in them, which means that there are a lot of chakra awakened. This applies mainly to the status of the planets and stars. In every human being, the saphthachakras functions in man are these somatic cycles lead to different kinds of creativity or creative power. The power of action differs from person to person. The reason for this is chakra. Let me give you a

bike example, there is no other bike like another bike. Diversity wheels work the same way the bike does. But the engine is only fast and differential.

Project 85: If Jupiter, mars is in lagna and Saturn or mars in Saturn respectively, it should be in 5 and 7 or Saturn should be in the 12 house of the decaying (weak) moon. Or Chandra, mercury should be the Center of vision or other planetary beings. If this is the case, the person will have a mental illness and become mad. Taurus (Zodiac Sign) will then convert him into mentally and physically defective.

- A lunar planet is responsible for the loss of human memory because mercury is affected by the planet.
- If the planet Venus is affecting the moon, man is used to fatigue and tiredness.
- If the man is affected by the sun, he will suffer from genetic diseases.
